You can do whatever you want  
Now and forever  
You can be the one I want  
Oh but don't deny me a lifetime loving you

If we can let our hearts surrender  
We can do whatever we want  
Love will always keep us together  
And if we can let our hearts surrender  
We can do whatever we want

Open your heart  
Give in to mine  
Cause we are aligned  
I'll never let go  
Cause you're some kind of miracle

If we can let our hearts surrender  
We can do whatever we want  
Love will always keep us together  
And if we can let our hearts surrender  
We can do whatever we want

If we can let our hearts surrender  
We can do whatever we want  
Love will always keep us together  
And if we can let our hearts surrender  
We can do whatever we want

Now and forever  
Now and forever

Hey, every song reminds me of you  
Wondering if you're missing me too  
There's people around but my mind's on you

And the days  
Go slow when I can't hear your voice  
You'd be here if given the choice  
I promise one day we'll do this together

You can do whatever you want  
Now and forever  
You will be the one I want  
Oh but don't deny me a lifetime loving you

If we can let our hearts surrender  
We can do whatever we want  
Love will always keep us together  
And if we can let our hearts surrender  
We can do whatever we want

Now and forever  
Now and forever

Hey, I'm going through the motions of life  
Acting like I'm alright  
Secretly, cause my mind's on you  
And the days  
Lead me right back to you  
We've got a lifetime to prove  
The days linger till I'm with you
